**Round 1 - Online test , round
2,3 -Technical interviews ,
HR round**

INTERN EXPERIENCE TALK

BRANCH :- Electrical and Electronics Engineering

INTERNSHIP SEASON :- 6months+ FTE

DESCRIPTION OF ROLE :- Cloud software developer

JOB LOCATION :- Bangalore

Role Overview:-

You'll be contributing to the design and development of scalable, high-performance systems for cloud and IoT platforms. Work with cross-functional teams to translate complex technical requirements into robust, testable code and architect data-driven solutions using modern software engineering.

DESCRIPTION OF ONLINE TEST

Intermediate DSA + SQL

DESCRIPTION OF TECHNICAL INTERVIEW

The technical interview was a mix of resume based discussion and fundamental cs concepts. Started with questions directly related to resume - projects , tech i have worked with. They asked in depth questions about system design related project I had done , as its a key requirement for role .

Few questions on core Object oriented programming concepts.

Overall , it was a balanced round focussed on practical knowledge and clarity of concepts.

DESCRIPTION OF HR ROUND

HR round was quite basic. Hr mainly asked questions to assess how i handle touch situations under pressure , decision making ability under different situations , and that was pretty much it .
