DESCRIPTION OF ONLINE TEST :-

In the online test, there were 20 Aptitude Type questions and 10 CSE core subject questions. The question level was moderate, and you had to solve them in 90 minutes.

DESCRIPTION OF INTERVIEW :-

There was only one interview round, which primarily focused on data structure and algorithm (DSA) problem-solving skills, along with some basic knowledge of Embedded C.

The first question was about the lexicographic order and finding the first greater integer value. After that, they asked 3-4 more questions that ranged from easy to moderate difficulty.

The main topics for DSA questions included bit manipulation.
