INTERN EXPERIENCE TALK

BRACH :- **Electrical and Electronics Engineering**

INTERNSHIP SEASON :- **6-Month + Full time Employment**

DESCRIPTION OF ROLE :- **Hardware (Digital)**

JOB LOCATION :- **Hyderabad**

SKILLS LEARNED :-

DESCRIPTION OF ONLINE TEST :-

The first round of the selection process is online test. It is a 2 -2.30 hr test comprising of 3 sections: Aptitude, General Computer and Electronics based questions and Role based questions. My role was Digital so I got Digital section. Each section will have 20 questions and total 60 Questions. It has negative marking too. Majorly focus was on Digital Electronics, CMOS, Logic Families, Computer Organisation and Architecture and basics of Programming(C and C++)

DESCRIPTION OF INTERVIEW :-

Round-1:- This round was completely technical. Asked about digital electronics (Boolean Algebra and Combinational logics) and some theory questions related to electronics. Round -2:- This round focused on Basics of electronics(most on semiconductors, diodes, transistors and their working) and projects mentioned in resume, at last it ended with few simple HR questions. Interviewer was asking tricky questions on basics. Round -3:- This was an optional round. Interviewer asked questions on STA, Verilog coding, Sequential Circuits, Computer Architecture, Basics of CMOS and VLSI. This round then turned into a interactive talk about the company details etc.,
